

Submitter: Ibra Taher

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB2803

The people are already suffering from the bad economy. We complain about the wages and expenses all the time, yet our politicians think it is a good idea to increase government fees for permits they put in place themselves. You want the person who desires to get a well for himself and family to see your permission to drill in his own land and on top of that to pay you more for forcing him to seek your permit. This bill increases the hardships and must be opposed.
