

Submitter: Douglas Neville

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I firmly oppose the appeal of all mail-in voting. It has worked for many, many years. Going back to standing in line to cast a ballot is regressive and unnecessary. My signature has changed over the years and I've had a message from the election division saying my signature didn't match what was on file so it is clear they are being checked.

This is a stupid, regressive ballot that should not be passed.
