Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this bill. I am disabled and unable to stand for long periods of time. This bill would make it very hard for me to vote. This bill would not only affect me but those who also have disabilities. There are people who would not be able to make it to polling sites due to not driving, living too far from polling places. This system has worked for decades. DO NOT PASS THIS BILL!
