If Republicans want to cancel vote by mail, they need to explain in full detail with evidence, why. Ambiguous claims of "voter fraud" will not cut it. Show proof. Show us where "illegal immigrants" and "dead people" are voting. Show us the charges of fraud that have been filed. I can claim "Martians are voting" but it doesn't make it true. If Republicans have all this evidence, show us the court cases.

Otherwise, this is simply an attempt to make voting more difficult, more inconvenient, and disenfranchise people they disagree with. Tell me where you plan to put polling places. Tell me how much this will cost. Who will pay for it?

Republicans continue to break systems so they can claim they are broken.
