

Statement in Opposition to SB 210

No sensible Oregonian would advocate destructing our efficient vote-by-mail system. Senator Smith and other proponents of this bill are cult-followers, serving *radical* ideas flowing from the East and *not* serving Oregon. Rural seniors like me support – no, insist on – maintaining Oregon's esteemed system for elections. I object to the idea of forcing me to drive over 50 miles, stand in line, and consume at least 3 hours of my life in order to exercise a right which I now enjoy in the privacy and comfort of my home. Do not take this right away from Oregonians.
