Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail works for everyone in this state. There are so many elderly, disabled and people working two jobs, voting by mail makes total sense. Eliminating it makes zero sense except that maybe you're trying to keep a good portion of the people from voting by making it less convenient. We've never had enough voter fraud to make a difference one way or another so why do it? Keep it easy for our state to cast our vote! This holds true for both parties. If it's not broke, don't fix it.
