Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please do not end vote by mail. We should all be doing everything we can to make it easier for people to participate in democracy, not harder. Taking away vote by mail would ensure that only the privileged had their voices heard, as not everyone has the ability to take off work, time to wait at a polling place, transportation, or are physically able to vote in person. These are often the most vulnerable people in our society and whose lives are most impacted day to day by changes to policy and representatives we vote for. I say no to voting in person on Election Day!
