

Submitter:

James Shepherd

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

What? There's going to be a hearing on changing something in Oregon that is working really well--mail-in voting? Please spend my taxpayer money working on things that NEED FIXING, or send me my tax money back. I oppose any movement to change my right to vote by mail in Oregon.

The mail-in system is as distinctly Oregonian as the covered wagon!

I have been using the mail-in system for as long as I can remember.

I love the mail-in system because it gives me time to contemplate each issue at my desk before marking the little box.

I love the mail-in system because I work out of town a lot but know I'll never miss an election.

I love the mail-in system for those hard-working families that are working and have a tough time getting time to vote on ballot day.

I love the mail-in system for those who live in rural areas far from any voting place.

I have not met one person in Oregon--from any party or persuasion--who doesn't like Oregon's mail-in ballot system.

Everyone in Oregon loves the mail-in system because we have a template for voting that is fair and works.

I bet that deep down Senator Smith even likes the mail-in system.
