Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose S.B. 210 as requiring people to vote in-person is a form of disenfranchisement for many, especially people of color, those living in rural areas, and people who cannot afford to take time away from work to stand in line at a polling place. Removing the ability to vote by mail disproportionately affects lower class voters who will inevitably face additional challenges to accessibility, including, but not limited to, transportation, childcare, and loss of income.

Protect our right to vote by voting no on S.B. 210.
