SB210

I am a busy single parent. Mail in ballots are a time saving mechanism for me. Food and grocery delivery, Amazon Prime, and other for profit companies show that we as a nation are fans of more time effective ways. I work and parent full time. Taking us back in time to where people have to use their valuable and limited time resources to stand in line to wait to go mark off some boxes in a booth is archaic and would increase the number of people unable to make it to the polls. The cynical part of me think this is the aim of the bill; people who are time poor will be the losers. Please do not enact this bill.
