Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please do not push through in person only voting. One of the most amazing and democratic things about Oregon is people's ability to vote via mail. It gives people time to read through their pamphlet, consider their options and vote for what they want. It also allows more individuals to vote. Many people would not be able to vote without mail in ballots due to health issues, loss of wages for time off Etc... this would go against what the people of Oregon want. I do NOT support this.
