Vote By Mail is the single, best way to make sure all Oregon citizens have a voice in our elections. It eliminates all the challenges facing folks that have the hardest time getting to the polls – single parents, seniors, and those with disabilities. They don't have to have a car that works or a boss who will give them time off to vote. They don't need to find someone who will watch their small children or a bus to get them to the polls. A strong democracy depends on have all voices heard, not just the ones who have the most resources. Keep Oregon voting equitable.
