Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This bill is an attempt to take us back to the horse and buggy era. We have a functioning voting system that makes it possible for all registered voters to vote in the most cost-effective, efficient, and effective way. Why change it back to a system that makes it harder and even impossible for a great number of voters to vote? Unless, of course, that is the actual intent of this bill? If that is true, then this bill is at base un-American!
