Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Oregon consistently has some of the highest voter turnout in the nation, which is largely due to our convenient mail-in voting. Changing our vote-by-mail system is reckless and irresponsible. The only logical reason to go back to in-person polling stations is to suppress voter turnout and last time I checked, that's not a good thing. Please do not let this atrocious bill survive past committee. Oregon has secure elections and there is no reason to fix what isn't broken.
