Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Let's start by realizing France outlawed mail in voting in the 1970s due to fraud. I am 69 and have lived in Oregon nearly all of my life. and remember when I showed an ID, signed a ledger, received my ballot and voted. We didn't take days or weeks to get our results and I had confidence in our elections. Those days are long gone and we MUST go back to in person show an Id voting if we are to restore confidence in our elections.
