

Submitter:

Julie Mercaldi

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

My family has lived in several states to include Idaho, Colorado, Alabama and Oregon. I am a nurse and have seen where patients haven't been able to vote. I've worked in nursing homes and at the VA where lack of transportation and the a patients ability to physically attend voting booths, compromised their rights to vote . I've seen no proof were rapid invalid or illegal voting has happened. There are states such as Alabama where hostility between the republicans and democrats while waiting in line to vote happens. Which could easily dissuade people from attending the poll sites to vote. Oregon would be doing a disservice to it citizens removing mail in voting.
