Kylee Kersten

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This feels like voter suppression to me. Especially for people with disabilities and medical needs who can't vote in person, as well as those who can't take the time off to vote. Our system works fine as it is. There's no good reason to change it, especially as we're seeing more and more voter suppression tactics being used across the country.
