Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please save mail-in voting! I work, like most voters, and while I can afford to ask for the day off in order to vote, this is a privilege that is hardly universally available.

Eliminating mail-in voting will disenfranchise many working class voters, voters with disabilities without transportation and voters who (for whatever reason) lack ID. This is a measure is a direct attack on democracy.
