Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB210. Mail in voting is convenient and allows voters of all demographics to vote when it is convenient to them. Mail in voting results in a higher voting rate and is inclusive of more people. Elderly and those who work long hours may not be able to make it to the polls on the specific voting day, resulting in lower voter turnout. Oregon has been using mail in voting for a long time and incidences of voter fraud are low. In conclusion, mail in voting is a cost effective and convenient way to ensure the highest rate of voter turnout and inclusion.
