SB210

I vehemently oppose this bill. This bill does nothing to address the challenges Oregonians face. Instead it seeks to make our lives harder. This bill is voter suppression and a betrayal of democracy. One citizen, one vote but only if you make it to a polling location on election day? Oregon has consistently had the highest voter turnout because of mail-in voting. If you're so concerned about voter fraud, allocate more funding for elections systems and voter database maintenance.
