

Submitter:

Morgan Perry

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB210, as it would roll back Oregon's long-standing and successful vote-by-mail system. Mail-in voting has increased participation, improved accessibility, and ensured secure elections for decades. Requiring in-person voting on Election Day would create unnecessary barriers for many voters, including seniors, people with disabilities, rural residents, and those with work or family obligations. Instead of moving backward, we should focus on expanding voter access and maintaining the integrity of our elections. Please reject SB210 and uphold Oregon's tradition of accessible and secure voting.
