

Submitter: Riza Resnick

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3542

In my experience as a resident of Oregon and motorcycle rider, I feel it is my responsibility to express my support for lane splitting. It will legalize an already common practice that reduces one of the largest problems in a city as quickly growing as Portland. By that I mean traffic during peak transit hours. This measure will allow for those who can to allow themselves the agency to not only reduce their own transit time, but the transit time of those around them.
