

Submitter:

Arie Shteif

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Requiring in person voting would take time away from the day of people like me who work jobs with inflexible time-off requirements and it would diminish my ability to research candidates, measures, and have informed political discourse with my fellow citizens. I strongly believe that mail-in voting should be protected and that it is in the best interest of Oregonians to be informed and send our best folks to Salem as well as our best ideas to referendum.
