SB210

Oregon's vote by mail is a success story that has improved voter turnout. I can't imagine how in-person voting would have worked with Portland's recent lengthy rank-choice voting ballot. For disabled and older Oregonians, working individuals and parents who can't reach the poll in time, and those in rural communities, voting by mail is a godsend. Please don't throw out a system that works.

NO on SB 210!
