Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I support this bill. While everyone enjoys the ease of mail-in voting, there is no real means to insure integrity and no check of voter ID. Almost 95% of the rest of the world requires voting in person with ID to ensure that only those who are eligible to vote are voting. Why should Oregon (and the rest of the US) be different? Absentee ballots for people with mobility issues or people traveling, fine. Otherwise, get out and vote. One day - one vote - with ID!
