Jeff Miller

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote by mail is important not just for the elderly and youth and socially anxious individuals, but for military individuals, individuals living abroad, and so many more. Additionally, vote by mail allowed individuals to research while voting. An ongoing problem with our society today is that we have no time to research AND vote, so we vote purely on party representation.

It is our RIGHT to have absentee voting or vote by mail. Our veterans have fought for these rights, they have sacrificed their lives to protect us as individuals and protect the constitution, to which this administration, Senate and Congress included from a Republican standpoint, stands to demolish our constitution with impunity.

Trump, and his cohorts, aim to remove as many Democrats, who are in power, from service and aims to remove any possibility of Democratic voting system in order to secure his path with more votes and power. Oregon is very much known as a blue state and he aims to take us down in any way possible.
