

Submitter:

Kelley Wesson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a person that has lived in Oregon all my life, I have found it very important to participate in the electoral process in every single election. Since I was 18 years old, I have participated in my constitutional right to vote and have done so by mail every single time. Oregon has done an excellent job at creating safe and secure elections by mail since 1987 - the year I was born. Never has this been an issue until this administration started crying about stolen elections when they did not win. This administration is known for trying to take away our rights and making everything so much harder for the normal person. In today's day and age, the average person has very little time in their day to day for anything, much less waiting in line for hours to cast a vote in person. We see the issues other States have caused their constituents with restricting voting access and that is not something we want in Oregon. Long lines, lack of voting places, laws making it more and more difficult for the normal person just to place their vote. Stop coming after our rights, leave our voting alone and deal with the many other issues that our country is facing. Oregon voting is safe, fair and easy. Focus on something else that will actually HELP the people. That is your job after all - but it's clear our reps, especially our Republican reps, have forgotten and don't care. We see you and what you are doing!!!!!!
