To whom it may concern,

I am a voter in Oregon and I believe that our mail in voting system is good. We do not need to change it. In person voting is hard for many people because of work hours, transportation issues or mobility issues. That means access to voting will be greatly reduced. I do not see that as a good thing. I want to vote from the comfort of my home. As working people, my family deals with enough stress as it is. Voting should not be an exclusive activity for those with free time. We contribute to society, we pay taxes, and we want to vote when it is convenient for us.
