Mail in voting is a pride of Oregon and makes voting here the most accessible to all. Mail in voting is particularly important for elderly and home bound people who should be allowed their right to vote but would be burdened, or not be able to participate, because they cannot travel. Additionally it gives our rural community members better access to voting when they might have to travel far. And finally, self employed people, who don't have the "luxury" of their job letting them have a day off to vote. This is a ridiculous proposal and we must protect Oregon as a state of ACCESSIBLE DEMOCRACY.
