SB210

As a long-time Oregon voter, I find the Vote by Mail voting process one that encourages voting by making it easier than having to travel to a voting site during specific hours. One can vote in the privacy of one's residence and whenever it is convenient. I think it encourages more Oregon citizens to take the time to vote. Please don't take this away just because a wanna-be dictator doesn't like it and has made an executive order to make all voting possible only in person.
