Senate Committee On Rules

Measure, Appointment or Topic:

SB210

To whom it may concern,

I strongly oppose this proposal to make in-person voting the standard method for conducting an election.

Reducing the ability for Oregonians to take part in our elections through narrowing of voter access is unacceptable. Strike down this proposal, and retain Oregonian vote-by-mail as the standard for voting in Oregon. All citizens should be encouraged to vote by their own preferred voting method, and transparent partisan proposals such as this to reduce voter access to the polls are abhorrent.

Thank you for your time.
