SB210

I'm writing in opposition to SB 210.

Oregon has one of the most secure and trusted vote-by-mail systems in the country.

Switching to in-person voting would be unnecessary, expensive, and disruptive.

We don't have the infrastructure to support full in-person voting. This bill creates chaos where there is none.

It's not about fixing anything — it's about breaking something that works.

Let's protect our democracy. Please vote NO on SB 210.
