Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Hello , trying to get rid of one of the best vote by mail systems in the US is a real waste of our time and tax dollars. It is just another form of voter suppression.

Driving to a polling station standing in line , being intimidated by people hanging around the station.

The only problem with voting my mail could be the current administration trying to privatizing our great postal service! Voting at home with family around, not putting more carbon in the atmosphere. What's not to like . Just about 0 fraud! Come on! Stop trying to suppress our voted !
