

Submitter: Amy Wood

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

As an Oregonian with no person transportation, who lives in an area with poor public transportation infrastructure and who works graveyards, requiring in-person voting would make voting nearly impossible for me and likely hundreds of other Oregonians.

We are proud to have had some of the best voter turnout in the nation in past elections and don't want to see that change.

Please do not support SB 210.

Keep Oregonians voting!
