

Submitter: Justin Bengtson

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

This is a grave insult to democracy in our state which will result in lower turnout and favor higher income voters, especially in rural areas, and may even allow turnout targeting of certain districts in the manner that other states have utilized; it will greatly enable vote manipulation. Also, voter ID at time of vote is not needed because we register voters beforehand. Please vote no on this blatant attempt to reduce our citizen's democratic agency in this state.
