We have one of the best voting systems in the country, why would we want to ruin that? I'm a registered nurse and work long hours on nightshift, so voting by mail is very practical and allows for me to sit down at my own dinner table and review the issues on my day off. My husband is a pilot who travels globally for work, he also is often out of town on Election Day, again he would be unable to vote if we changed to the system our POTUS is pushing for, but I think that is probably the goal, to take away our voice and our vote!!
