Bryan Taylor

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose repealing voting by mail. There has never been any substantive evidence that voting by mail is insecure and that it does not legitimately reflect the will of the people of Oregon. Giving a larger window of when to vote and allowing for people to vote from home prevents people from having to take time off from work to vote at best or skip voting entirely at worst. Legislation like this is only being put forward in bad faith to subvert voters in a state I am proud to be a resident of.
