SB210

I am absolutely disgusted that our representative figures are even considering a change from voting by mail. As a young millennial balancing two jobs, this would make my personal ability to vote immeasurably more difficult. With our current system, I am able to take my time and research issue by issue, candidate by candidate. I can drop off my ballot to or from work, at numerous different places. Most importantly, I don't have to request any time off. I take my duty to vote extremely seriously, especially on local issues. I am so grateful to have the ability to vote according to my own schedule, within reason. This is something that ENCOURAGES me to do my part and vote, while adding more steps to the process would deter me. Is that truly what we want? To make it harder for those like me to do their part? I urge you to do the right thing and vote against SB210.
