Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I believe voting by mail is safer. It also helps reach everyone to have their vote counted. Many people don't have the flexibility with work and home responsibilities to be able to vote in person. This gives the disabled the ability to vote. The weather is notoriously bad and there are usually long voting lines outside. I think this measure is being brought up to make it more difficult to vote and it should be made very easy to vote and voting by mail is easy. The voting system here in Oregon works.
