Michelle Ettelstein

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Vote by mail is an essential way for people to vote for the following people: those who work full time or care for young children and/or elderly family members, elderly who cannot get to a voting place in the rain and wait, people who are sick or housebound...the list is long. This bill is voter suppression. Please vote no on a bill that will make it harder for people to vote. We should be passing laws making it easier for people to vote.
