Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

SB210 would disenfranchise the citizens of Oregon. Vote NO on SB210. Having live and voted in 3 different states, I can attest that Oregon has a voting system that allows more participation than most states. In fact, the statistics show that Oregon has a higher voter turnout than many other states. This is what we want as a democracy - to remove barriers to engage in our election process NOT to create barriers. Mail in voting allows those who cannot take time off work, who are unable to leave their homes, who do not have transportation, etc., to vote. In addition, having one system for all reduces confusion and makes the best use of state resources. SB210 would be a backwards step and would cause the disenfranchisement of millions of Oregon voters. Please vote no on SB 210.
