Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Please do not bend to this voter suppression tactic. I love voting by mail and everyone I know if the state of Oregon loves it. I can read through the voter pamphlet then do further research online. I can take my time filling out the voter form, put it away for a while then come back to it. The system works and last time I researched there was no evidence to support the idea that there is widespread voter fraud using this method.

Thank you, please keep fighting for fair elections and democracy.
