SB210

As a US Citizen and Oregon resident, I am against this bill to make in-person voting the standard method for elections. Our current system, mail-in voting, is cheaper, easier and has Higher voter turn out. This allows more time to make informed/researched votes if desired. There are many barriers for those who are more vulnerable in their ability to vote in an in-person system, including unable to take time off to vote in-person.
