Regarding SB 210: Repealing Vote-By-Mail in Oregon

I know I don't have to say this, but one-day, in-person voting will disenfranchise many Oregonians, significantly the elderly and/or disabled—myself and my husband included. Voter turnout will suffer, and democracy will be the worse for it.

Please don't cave to pressure from those who are actively trying to dismantle our democratic republic. This nation was here before the extremists took power, and if we all stand together, it will remain long after we've defeated them. I strongly oppose SB 210 as I oppose any attempt to subvert democracy.
