Measure, Appointment or Topic:	SB210

Dear remaining "elected" officials,

This is a specious Bill. It is a raw attempt to follow a well worn path by a psychotic fringe to DESPOTISM. Voting by mail has been thorough, safe, incredibly reliable and accurate. It would be a Social/Moral sin against Citizens of a Democracy to eliminate. this system. In fact we should strengthen and support Vote by Mail.*

Do not change our laws for the sake of a sick and twisted faction consumed only the excess of their own hate! NO, NO, NO!

Thank you,
Robin L.

*P.s. Expand and support voting by mail with State paid time off from work and State paid transportation to and from multiple polling stations to be crested in every district.
