It is absolutely abhorrent that this measure is being presented during a time when so many Oregon voters are experiencing unprecedented economic distress. Many Oregonians don't have the ability to take time off from work to deal with their own medical issues, let alone participate in local democratic processes. This should be seen as a direct attempt to steal voices from the public and an attack on our democracy and the constitution. Poor, disabled and disenfranchised citizens are still citizens. Their opinions matter.
