Committee: Senate Committee On Rules  
Measure, Appointment or Topic: SB210  
Testimony for opposition to SB 210:

There is no reason to eliminate mail-in voting, and no reason to cower to Trump's BS executive order. Doing so will make it difficult(if not impossible) for some people who have disabilities, transportation or other obligations or issues making it in to actually vote. This will cause a potentially measurable change in how the state and it's people vote. We want fair elections that ALL can participate in. Vote NO!
