Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I think this is clearly a move to suppress voter participation. Our vote by mail system works beautifully and allows so many people - the elderly, the disabled, the caretakers who barely have time to sleep, the people who live outside the city, and so many more - to cast their vote and make their voices heard. This is a clear move to silence and disenfranchise them. Please do not fall into lockstep with the cruelty that is infesting our country. Vote no on this bill.
