I like the way it is now. I can sit in my pj's with my ballot and information sprawled on the floor and take my time voting. I don't want to wait until election day, getting all kinds of junk mail every day until then, have to go somewhere and wait in line and vote. The mail in ballot is much easier and I also think more people vote this way. There are 3 of us in my household and I speak for all 3.
