With my work schedule, the only way for me to be able to make time to vote is by mail. There are inadequate resources available for everyone to be able to vote in person and this proposal is clearly an attempt to reduce voting turn out. Whoever came up with this idea has no respect for the elderly, infirm, and all the other folk who do not have time or resources to travel to voting sites where they have to wait, sometimes for hours before being able to cast their vote. I am absolutely opposed to this proposal. Mail-in voting must be protected.
